Royal Enfield Gymkhana rolled into Chennai on June 28, 2026 transforming Chennai Moto Park into a full-day motorcycling playground. The event brought over thousands of riders and enthusiasts along to a day of expert coaching, immersive ride zones and skill-based challenges to the city, giving participants a hands-on feel for what Royal Enfield's motorcycles can truly deliver.

Riders moved across four purpose-built arenas through the day, spread across Experiential and Gamified Tracks, each designed to showcase a Royal Enfield motorcycle, namely Himalayan 450, Scram 440, Guerrilla 450 and Hunter 350, in the environment it was built for. The community also witnessed Stunt performances and drift training on the Guerrilla 450, adventure workshops, and DIY workshop. Additionally, a 650cc Immersion Zone gave the community a clear path up the displacement ladder through a market-specific display and on-ground finance options, while dedicated zones for Accessories, Apparel, Service and REown showcased personalisation options, a styled retail-style display of riding gear, a walkthrough of service offerings, and information on exchange and upgrade-related ownership services, respectively.
